To Whom it May Concern:

I have been employed as an insurance adjuster for approximately seventeen years, With eleven of those years assigned to investigate bodily injury claims. I was attached to a special unit investigating fraud for four years.

Pyntium Corporation was recommended to me as a good firm for surveillance. In the course of the last three years I have found the quality of the work to be above average and of excellent quality. Pyntium's crew has on many occasions provided us with enough to deny many fraudulent claims which would otherwise have been paid out.

I have no hesitation in recommending them for surveillance assignments.
